Forecast for Thursday 03 Aug 2023

Weather: A lot of cloud through the day across most of Argyll, southern Lochaber and across Kintyre and Mull, this thick enough to give some showers. The Trossachs and Arran will be dry with cloud breaking to allow some sunshine.

Chance of cloud-free hill tops above 800m: 30%, best chance in the southeast of the area

Low Cloud and visibility: Poor with extensive low cloud throughout the day down to 500 to 800 metres. Cloud likely to break and lift above the tops across Arran and the Trossachs by afternoon with good visibility.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Cold, strong northwesterly summit winds will lead to notable wind chill, and combined with low cloud will make for slow progress.

Forecast for Friday 04 Aug 2023
Weather: A cloudy start with some patchy light rain. Becoming brighter through the morning to leave a largely dry afternoon with some sunny intervals and only a brief passing shower.

Maximum wind: Northwesterly average speeds of 20 mph with gusts to 30 mph on the higher tops, easing later by afternoon.

Chance of cloud-free hill tops above 800m: 80%, best chance in the afternoon

Low Cloud and visibility: Poor in areas of low cloud down to 700 metres at first, this breaking up through the morning to leave patchy cloud at 900 metres or higher in the afternoon with good visibility.

Temperature: **Glens:** Plus 8 rising to 18 Celsius
At 800m: Plus 9 Celsius
Freezing level: Above summits
